

Saadiumm Hyper-Gold™ 5800 series sights

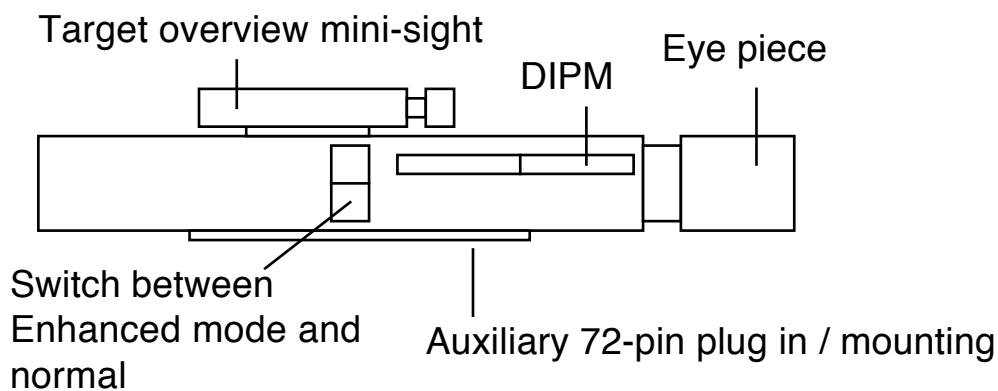

The Saadiumm Hyper-Gold 5800 series sights are the best sights in the Empire. They are affordable and are made from high quality reinforced cardium alloy. All Hyper-Gold Gold sights come with a life-time guarantee against faulty parts.

Hyper-Gold 5810 Enhanced™ mode sight

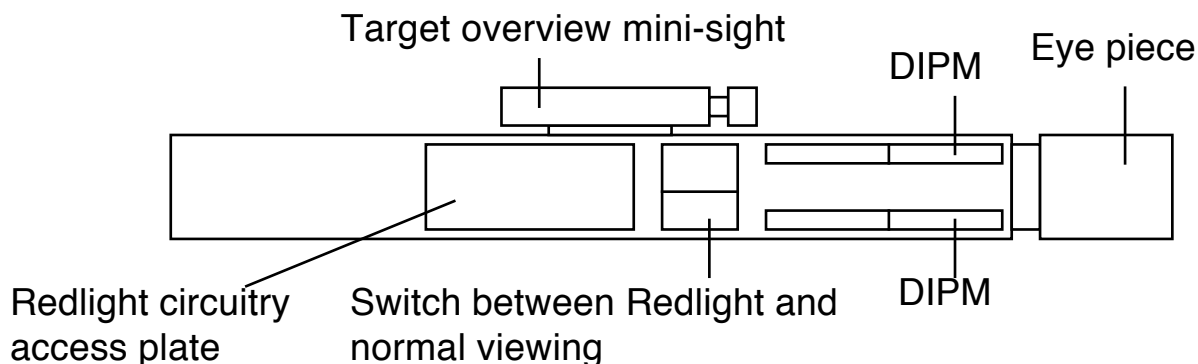

The 5810 is a small, affordable sight. Within its casing is the remarkable Enhanced mode circuitry. This produces images of amazing quality and resolution. It can magnify objects up to 60 x 10

Hyper-Gold 5830 Enhanced mode sight

The 5830 is essentially an up-grade from the 5810 but with 2 new features: an auxiliary 72-pin plug in / mounting for increased life of the DIPM (Dual In-line Power Module) and a target overview mini-sight.

Hyper-Gold 5860 Redlight sight

The 5860 is a bit more than an up-grade from the 5830. It has an access plate to the Redlight circuitry; 2 DIPM for an extended life before they run out. It also features the target overview mini sight.
